

Virtual
Buyer Seller Meet (BSM)
for
Turmeric

with focus on Telangana
03rd February 2021 / 2.30 pm to 5.00 pm

India is popularly known as the “Spice Bowl of the World” as a wide variety of spices are grown in the country since ancient times. Turmeric (*Curcuma longa* L), the ancient and sacred spice of India is an important commercial spice crop grown in India. Turmeric is the dried rhizome of *Curcuma longa* L, a herbaceous perennial plant belonging to the family Zingiberaceae and is native to South Asia, particularly India. It is used in diversified forms as a spice, flavoring and coloring agent and as a principal ingredient in Indian cuisine. It has anti-cancer and anti-viral activities and hence finds use in the pharmaceutical and cosmeceutical sectors. The increasing demand for natural products as food additives makes Turmeric an ideal food color.

India is the largest Producer, consumer and exporter of turmeric in the world. The exports of Turmeric has been recording a steady progress, over the years. During 2019-20, India exported 1,36,000 tons of Turmeric valued Rs.1216.40 crore which contributed to 11% in volume and 6% in value of total export of spices from the country. Also, India is the global leader in production and export of value added Turmeric products. The immunity boosting properties of Turmeric has played a key role in boosting the demand of the spice during the COVID 19 pandemic situation, which in turn contributed to a significant growth of 42% in quantity (99,000 MT) and 35% in value (Rs. 85,810 Lakhs) in Turmeric exports during the first half of the current financial year (April-September 2020).

Turmeric is mainly grown in Telangana, Andhra Pradesh, Tamil Nadu, Karnataka, Kerala, Maharashtra, Orissa, West Bengal, NE States etc. Telangana is the largest producer of the spice in the country. In Telangana, four districts (erstwhile) viz. Nizamabad, Karimnagar, Warangal and Adilabad account for around 90% of the production of Turmeric in the State and this area houses the important turmeric markets in the country. Turmeric crop plays a very important role in the livelihood of the farmers of the State

Duggirala locally known as Erra Guntur variety is one of the majorly grown varieties in Nizamabad, Karimnagar and Adilabad districts where as in Warangal district a mix of Erraguntur, Tekurpet and local varieties are being cultivated for the past few decades. Other than the above mentioned varieties, are few more Turmeric varieties such as Armoor, Prathibha, Rajendra Sonia, Rajendra Sonali etc. are grown in Telangana.

Spices Board Regional office & Extension Centre, Nizamabad is involved in various activities for post harvest improvement and export promotion of Turmeric and other spices grown in the region, such as assisting stakeholders for installing Turmeric Boilers & Polishers, Implementation of various programs/ schemes for export promotion, conduct of various physical/ web meetings for Farmers, FPO's, exporters, entrepreneurs etc, Quality improvement Training programs for spices involving scientists & officials from other line departments, providing extension advisory services & field visits etc. Also, a Turmeric Task Force Committee (TTFC) has been constituted by the Board to augment collaborative efforts by various stakeholders, for effectively tapping the full commercial prospects of Turmeric.

Spices Board with a view to further promote the export of spices and spice products, is organizing Buyer Seller Meets (BSM) regularly, so as to provide a common platform for the Buyers and Sellers of the spice industry, to interact directly and establish effective business linkages. Accordingly, the Board is organizing an online Buyer Seller Meet for Turmeric with focus on Telangana on 03.02.2021. Around 100 sellers/producers representing FPOs, progressive farmers, farmer's societies, processors and traders from Telangana and around 64 exporters/buyers are expected to participate and benefit through this BSM.
