Technical Specifications

Analytical Standards

- 1 The analytical standards in Table I as per the specifications and quantities should be quoted. In the case of inability to supply any of the standards in Table I, it should be clearly indicated as 'Not Quoted'.
- 2 If separate standards are available for isomers indicated by * in Table I, they should be quoted separately. If mix standards for isomers are quoted, then this should be clearly indicated in the quote.
- 3 If the indicated pack size is not available, the next higher pack is to be quoted.
- 4 **Certificate of purity and expiry dates with traceability to batch numbers** for each standard should be available, along with all required analytical data.
- 5 Storage conditions and MSDS data should be supplied for each standard.
- 6 Any standard found to be expired / defective on delivery or degraded before the specified expiry date should be replaced free of cost.
- 7 Items should be supplied **within one month** from the date of order.
- 8 A compliance statement against the points mentioned above should necessarily accompany the quotation.
